

Alaska is an area of natural beauty and magnificent landscapes. Natural forces loom large in our history and in our daily lives. Because of this, our lives are subject to a wide range of natural disasters. Floods, earthquakes, wildfires, severe storms, tidal waves (tsunamis) and volcanic eruptions are normal routines. Being prepared for these eventualities is just a matter of a little time and effort to pull together some supplies to help you adjust to emergencies without undue stress. Stocking up now on emergency supplies can add to your safety and comfort during and after any natural disaster. Store enough supplies for at least 72 hours.

1. Basic 72-Hour Emergency Evacuation Kit

For emergencies requiring home evacuation.

Container: A large, sturdy backpack and (if necessary) a sturdy plastic bin, able to be carried by one or two adults in case of evacuation.

Location: In your car (not parked in a garage) or near an exterior door of your home. Consider locating a second supply away from your home: at work, on a boat, or at a friend's or relative's house.

Supplies

Survival:

- 2 quarts to 1 gallon of water per person, per day*
- First Aid Kit (see list #2)
- 3 days of non-perishable food per person, with can-opener if needed

For Sanitation:

- Garbage bags, plastic zippered bags
- Personal hygiene items (cleaning wipes, feminine supplies, soaps, toothbrushes & paste, toilet paper)

Cooking:

- Camp stove with fuel
- Mess kits, paper towels, dish detergent, aluminum foil
